## Semi-Rotary Hand Fuel Transfer Pump

1630ml Per Rev (approx.)

### About the Product

The Semi-Rotary Hand Fuel Pump is a popular choice for the manual transfer of diesel due to it being reliable yet cost effective. This manual diesel transfer pump is available in several sizes with differing flow rates depending upon the individual customer requirements. Benefitting from sturdy cast iron construction, back plate lugs for easy mounting and removable inlet/outlet flanged, this hand fuel transfer pump is the ideal solution for many applications.

### Features of the Semi-Rotary Hand Fuel Pump:

- Manual semi rotary diesel hand pump
- Rotary vane type design
- Cast iron construction
- Max flow rate: 200-1630ml per rev (depending upon model)
- Inlet/Outlet: Removable F BSP flanged
- Backplate lugs for mounting
- Wooden/cast spindle handle
- Replaceable gland packing
